

Attention!

Attention all Parents:

Many children who attend Harbor Haven are allergic to nuts or nut products. (We do not serve any product that contains nuts or nut products.)

If you think you will be sending your child to camp with lunch items that contain nuts, please call or email so that we can send you special stickers to place on your child's lunch. By knowing this we can seat an allergic child a safe distance from the nut product.

If you run out of stickers during the summer, please send a note requesting more, or simply use a marker on the lunch bag to indicate "contains nuts."

We know that many children eat breakfast foods that contain nuts or nut products at home. We ask your diligence in making sure that your child's hands and face are washed after breakfast. We greatly appreciate it. No food is allowed on Harbor Haven busses and vans.

We thank you and we know the parents of children with allergies thank you.
